It provides that a brewer or winery may allow transportation to and consumption of this beer or wine on the licensed premises but may not allow sale of the product on the licensed premises. Explanation of State Expenditures:

Explanation of State Revenues: This bill may result in a minimal decrease in the number of Class C misdemeanor cases. If fewer court cases occur and fewer fines are collected, revenue to both the Common School Fund and the state General Fund would decrease. The maximum fine for a Class C misdemeanor is \$500. Criminal fines are deposited in the Common School Fund. If the case is filed in a circuit, superior, county or municipal court (courts of record), 70% of the \$120 court fee that is assessed and collected when a guilty verdict is entered would be deposited in the state General Fund. If the case is filed in a city or town court, 55% of the fee would be deposited in the state General Fund.

Explanation of Local Expenditures: This bill may decrease jail expenses by a minimal amount. A Class C misdemeanor is punishable by up to 60 days in jail. The average daily cost to incarcerate a prisoner in a county jail is approximately \$44.

Explanation of Local Revenues: If fewer court actions occur, local governments would receive less court fee revenue.
